EXPERIENCE

Wipro, Chennai — Project Engineer

DEC 2020 - PRESENT

Project - VZEngage (Lead Management Platform)

- Built SPA from scratch which is integrated across 4 different channels with 6 roles, different functionalities and restrictions.
- Developed reusable components using both stateful and stateless components which allows users to create, view, edit, filter lead details.
- Refactored existing less performing heavy components into smaller, high performing reusable components using modern React concepts
- Worked on code fixes and code quality improvement as per SonarQube.
- Resolved bugs//build failure/coverage during Build,QA testing, pre-production, production and post-production.
- Coding standard followed is Airbnb along with use of Adobe Experience Manager for content management.
- Integrated Unit Test Cases using Jest and React Testing Library
- Project Management Methodology: Agile (Scrum, Sprint planning,Grooming, Retrospective), Jira (Bug tracking and team follow-ups).
- Tools- React Js, Redux, JavaScript, AEM, Jest, React Testing Library, Git, Kibana, Jira, SonarQube

CERTIFICATION

- Wipro FED-React Certification
- Salesforce Platform Developer 1

SKILLS

- React Js, JavaScript
- Redux, Saga
